Dear Paul:

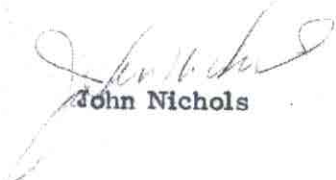

Frazier's testimony from New Orleans is on hand and Finck's testimony is with my Topeka Lawyers while transcription of my own testimony has not yet been completed. I Have sent a thermofax copy of Frazier's testimony to Harold but he thinks Xerox copies should be distributed.

Here, we overcharge ourself 20¢ per sheet for Xeroxing and 16¢ goes into a "slush fund" over which I have no control and benefit very little. Harold mentioned you can do this for 3¢ per sheet. # If you should want to take it on I could send you Frazier's testimony by insured mail if you could return my copy (Xerox from New Orleans) within a day or so by uninsured mail. You could then make copies for those interested.

Could send you Finck's testimony when my lawyers part with it temporary and could send My own testimony when it arrives. Each of these run some 125 pages or so.

Presume Harold will write you on this.

Sincerely,

John Nichols
